Celsion Announces Date and Time Change for Third Quarter 2010 Financial Results Conference Call to Monday, November 15, 2010

COLUMBIA, Md., Nov. 10, 2010 /PRNewswire-FirstCall/ -- Celsion Corporation (Nasdaq: CLSN), a late stage biotechnology drug development company that is leveraging its heat sensitive liposomal platform to encapsulate and deliver high concentrations of proven chemotherapeutics, today announced that it has changed the date and time to discuss third quarter 2010 results due to the Veteran's Day Holiday on November 11, 2010. The SEC's EDGAR service will not receive, process or accept filings on November 11 because of the Veteran's Day Holiday, and Celsion is rescheduling its third quarter conference call for 3:00 p.m. ET on Monday, November 15, 2010 to enable it to allow for its quarterly report on Form 10-Q for the quarter ended September 30, 2010 and current report on Form 8-K to be filed and furnished to the SEC, respectively, and disseminated to investors in advance of the conference call in compliance with applicable SEC regulations. To participate in the call, interested parties may dial 1-888-218-8172 (Toll free U.S./Canada) or 1-913-312-9313 (International/Toll) and use Conference ID: 4428936 to register ten minutes before the call is scheduled to begin. The call will also be broadcast live on the internet at <http://www.celsion.com>.

The call will be archived for replay on Monday, November 15, 2010 at 6 p.m. ET and will remain available until Monday, November 22, 2010. The replay can be accessed at 1-877-870-5176 (Toll Free U.S./Canada) or 1-858-384-5517 (International/Toll) using Conference ID: 4428936. The call will also be available on the Company's website, <http://www.celsion.com> for 30 days after 5:00 p.m. ET on Monday, November 15, 2010.

About Celsion Corporation

Celsion is dedicated to the development and commercialization of innovative oncology drugs including tumor-targeting treatments using focused heat energy in combination with heat-activated drug delivery systems. Celsion has licensed ThermoDox® to Yakult-Honsha for the Japanese market and has a partnership agreement with Philips Medical to jointly develop its heat activated liposomal technology in combination with high intensity focused ultrasound to treat difficult cancers. Celsion has research, license, or commercialization agreements with leading institutions such as the National Institutes of Health, Duke University Medical Center, University of Hong Kong, Cleveland Clinic, and the North Shore Long Island Jewish Health System.
