Celsion to Hold Fourth Quarter and Full Year 2009 Financial Results

Conference Call Wednesday, February 17, 2010

COLUMBIA, Md., Feb 12, 2010 /PRNewswire via COMTEX News Network/ -- Celsion Corporation (Nasdaq: CLSN), a late stage biotechnology drug development company that is leveraging its heat sensitive liposomal technology platform to encapsulate and deliver high concentrations of proven chemotherapeutics, today announced that it would hold a conference call to discuss fourth quarter and full year 2009 results at 11:00 a.m. Eastern Time on Wednesday, February 17, 2010. To participate in the call, interested parties may dial 1-888-516-2377 (Toll-free) or 1-719-457-2716 (International/Toll) and use Conference ID: 9564955 to register ten minutes before the call is scheduled to begin. The call will also be broadcast live on the internet at <http://www.celsion.com>.

The call will be archived for replay on February 17, 2010 at 3:00 p.m. ET and will remain available until Wednesday, February 24, 2010. The replay can be accessed at 1-888-203-1112 (Toll-free) or 1-719-457-0820 (International/Toll) using Conference ID: 9564955. The call will also be available on the Company's website, <http://www.celsion.com>, for 30 days after 3:00 P.M. ET on Wednesday, February 17, 2010.

About Celsion Corporation

Celsion is dedicated to the development and commercialization of innovative oncology drugs including tumor-targeting treatments using focused heat energy in combination with heat-activated drug delivery systems. Celsion has licensed ThermoDox(R) to Yakult-Honsha for the Japanese market and has a partnership agreement with Phillips Medical to jointly develop its heat activated liposomal technology in combination with high intensity focused ultrasound to treat difficult cancers. Celsion has research, license, or commercialization agreements with leading institutions such as the National Institutes of Health, Duke University Medical Center, University of Hong Kong, Cleveland Clinic, and the North Shore Long Island Jewish Health System.
